Short-term Non-convertible Debenture Programme	500.00	500.00	[ICRA]A1; downgraded from [ICRA]A1+
Total	35,097.88	35,097.88	

^{*} Instrument details are provided in Annexure-1

PP-MLD refers to the principal protected market linked debenture programme. According to the terms of the rated market linked debentures, the amount invested, i.e. the principal, is protected against erosion while the returns on the investment could vary as they are linked to movements in one or more variables such as equity indices, commodity prices, and/or foreign exchange rates. The assigned rating expresses ICRA's current opinion on the credit risk associated with the issuer concerned. The rating does not address the risks associated with variability in returns resulting from adverse movements in the variable(s) concerned.

Rationale

ICRA has taken a consolidated view of the Edelweiss Group, given the close linkages between the Group entities, common promoters and senior management team, shared brand name, and strong financial and operational synergies.

The rating downgrade action takes into account the increased stress in the wholesale portfolio, leading to a deterioration in the asset quality, and the consequent impact on the financial performance. The Group's gross non-performing assets (GNPAs) increased to 2.76% of total advances as of December 31, 2019 from 1.87% as of March 31, 2019. Edelweiss Group has actively looked at divestment of stressed / potentially stressed assets to asset reconstruction companies (ARCs) to leverage the resolution capabilities of ARCs; adjusting for this the GNPA level would be higher. The resultant higher credit costs, in turn, impacted the Group's profitability in 9M FY2020 (return on assets (RoA) declined to 0.2% in Q3 FY2020 and 0.5% in 9M FY2020 from 1.6% in FY2019) and are likely to continue to exert pressure in the current fiscal as well. The rating actions also take into account the continued funding challenges, as witnessed by the reduced fundraising by the Group, and the widening credit spreads.

The ratings continue to factor in the Group's demonstrated track record and established position in the financial services industry as well as its diversified business profile. While the credit businesses have emerged as key business segments, the Group continues to have a healthy stream of fee & advisory income.

However, these positives are partially offset by the credit and concentration risks in the Group's wholesale lending segments and the risks associated with the distressed assets business, given the focus on large ticket exposures. Moreover, retail lending has seen an increase in non-performing assets in the past few quarters as the seasoning of the book increases. ICRA notes that the Group is actively pursuing various alternatives for resolving potential stress and managing the portfolio. Going forward, the progress on such endevours and the impact on Group's asset quality would be important from a credit perspective.

ICRA notes that the Group's overall gross leverage levels have been high, compared to peers, due to the sharp growth in the portfolio over FY2017 to FY2019. However, its demonstrated ability to raise equity (by way of qualified institutional placement (QIP) in November 2017, and more recently in the form of compulsory convertible debentures (CCDs) and compulsory convertible preference shares (CCPs) at subsidiary level) at regular intervals provides some comfort. ICRA notes that the Group has been trying to simplify its complex structure with multiple cross holdings, which results in sizeable related-party transactions. The Group has reorganised its structure into three verticals namely 1) Credit – retail and wholesale credit; 2) Advisory – wealth management, capital markets, asset management and ARC; and 3) Insurance – life and general insurance. These businesses would be held and supported by the corporate vertical, which would house the holding company, Core Investment Company (CIC), balance sheet management business unit and some other functions. Furthermore, the Group has brought strategic (minority shareholder) partner on board at each vertical level (as well as at EARC). With the change in structure, the Group's erstwhile business model with seamless interaction (in terms of business and fund flow) between various entities (and verticals) may alter in the medium term. However, as indicated by the management, liquidity maintained at the corporate level would continue to see free inflow/outflow across the Group.

The Group's ability to maintain a healthy asset quality, given the increased risk profile of wholesale book, keep its credit costs under control and improve its profitability remains critical from a credit perspective going forward. Furthermore, the Group's ability to raise and diversify its borrowings and maintain a comfortable liquidity profile would be a credit sensitive factor. The outlook on the long-term rating is Negative on account of the heightened risk profile of the wholesale lending business, coupled with the challenging operating environment, which could continue to exert pressure on the asset quality going forward.

Key rating drivers and their description

Credit strengths

Diversified revenue stream with presence in credit and non-credit segments — Edelweiss Group is a diversified financial services player engaged in the credit, capital markets and other advisory businesses. It commenced operations in the capital markets related business and has established its position as a leading entity in the institutional equity broking and investment banking segments over the years. To diversify its revenue stream and reduce dependence on capital markets, the Group forayed into other segments like credit (wholesale lending in FY2006 and retail lending in FY2011), distressed assets (FY2010), and life insurance (FY2012). The net interest income has emerged as one of the key revenue drivers, accounting for 29% of the operating income in FY2019. The Group also draws the advantage of a healthy and consistent fee and advisory income of Rs. 2,133 crore, which accounted for 35% of the operating income in FY2019.

Strong presence in investment banking and institutional equity broking; asset and wealth management also increasing in scale – The Group continues to hold a leading position in the investment banking and institutional equity businesses. With a total average daily volume of ~Rs. 15,200 crore in FY2019 (retail and institutional), it is among the leading institutional broking entities in the country. The other capital market related businesses include proprietary trading and investments and wealth and asset management. The Group offers wealth management advisory services to its high net worth clients with assets under advice of Rs. 1,11,200 crore as on December 31, 2019 compared to Rs. 1,06,000 crore as on March 31, 2019. The Group is also engaged in asset management with a special focus on alternative assets. The funds under management (asset management) stood at Rs. 50,200 crore as of December 31, 2019 compared to Rs. 35,800 crore as on March 31, 2019.

Credit challenges

Deterioration in asset quality – The Group's loan book remains vulnerable to credit risks, given its high concentration in wholesale lending (49% of total portfolio), which is inherently risky in nature. The ongoing stress and funding challenges in the underlying borrower segments (real estate and structured debt), coupled with the gradual seasoning of the book with the completion of the scheduled moratorium period, have resulted in an increase in slippages. The Group has actively looked at divestment of stressed / potentially stressed assets to asset reconstruction companies (ARCs) to leverage the resolution capabilities of ARCs; adjusting for this the GNPA level would be higher. The reported GNPA in absolute amount increased to Rs. 742 crore as of December 31, 2019 compared to Rs. 677 crore as of March 31, 2019. This coupled with reduction in the overall credit book increased the reported GNPA ratio to 2.76% as of December 31, 2019. There has also been a decline in the security cover on wholesale book loans to an average of 1.56x as of December 31, 2019 compared to 1.8x as of March 31, 2019. The Group has also witnessed a deterioration in the asset quality of the retail portfolio, given the stress in the underlying borrower segment and the seasoning of the retail book. Given the resultant rise in credit costs, the profitability level is expected to remain subdued over the near term (RoA declined to 0.2% in Q3 FY2020 and 0.5% in 9M FY2020 from 1.6% in FY2019). The Group also initiated an asset quality review exercise in Q4 FY2020 whereby it is revisiting the expected credit loss (ECL) model to factor in the liquidity stress of its borrowers as well as other environmental changes. The Group's ability to maintain a healthy asset quality and keep the credit costs under control remains critical.

Edelweiss Group, as its stated strategy, is endeavouring to transition its credit portfolio predominantly into retail and significantly reduce its wholesale exposures. It expects a retail to corporate credit mix of 75:25 over the next two years. The Group has also decided to reduce its exposure to the wholesale book through sell-downs. In line with this strategy, it entered into an agreement with Meritz Financial Group (a leading South Korean financial services player) for a real estate platform. ICRA, however, draws some comfort from the Group's track record in real estate financing and its in-house operations/execution team and distribution network, which provide it with the ability to closely monitor and resolve assets if required.

Ability to maintain ALM, given resource mobilisation constraints, remains critical; relatively high gearing — At the consolidated level, the Group had total borrowings of Rs. 39,364 crore (including collateralised borrowing and lending obligations (CBLO)) as on December 31, 2019 (Rs. 40,094 crore as on September 30, 2019 and Rs. 45,217 crore as on March 31, 2019). It has a diversified resource profile and has been exploring alternative sources of funding over the past few quarters. The funding challenges are expected to persist over the near to medium term, given the operating environment and the risk-averse sentiment of investors towards non-banks, particularly wholesale-oriented entities. Thus, the Group's ability to mobilise resources at adequate rates is expected to remain constrained over the near to medium term. Fund raising by the Group from debt capital markets over the past few quarters has been lower compared to the pre-September 2018 levels while the secondary market yields have been elevated. The share of commercial paper reduced to 1% of the Group's total borrowings as of December 31, 2019 from 14% as of March 31, 2018. Over the near

term, collections are expected to be affected given the current operating environment. The Group's ability to maintain a comfortable asset-liability matching (ALM) profile, in future, would be a key rating monitorable.

While the Group's gross gearing (reported net worth and minority interest excluding insurance net worth) improved on a consolidated level to 4.97x as on December 31, 2019 from 5.90x as on March 31, 2019, it remains higher than peers. The Group, nevertheless, has a demonstrated track record of raising capital at regular intervals, which provides some comfort. Since the onset of the liquidity crisis in September 2018, the Group has raised an aggregate of ~Rs. 1,334 crore of capital in three tranches for its credit and advisory business. The capital raised in the form of CCDs and CCPs is currently classified as borrowings though they are compulsorily convertible into equity in due course. Should this be treated as equity, the Group's adjusted gearing would stand at 4.11x as of December 31, 2019¹. The capital raise provides some cushion to absorb losses, if any, on the stressed book. ICRA also notes that the Group plans to buy back 9.93% of the equity share capital of CDPQ investments in EARC as the latter has exercised a put option. This transaction is expected to be closed by Q1 FY2021, subject to approval from the Reserve Bank of India (RBI).

Subdued profitability levels; ability to realign business with core strategy and ensure healthy profitability remains critical – Over the years, the Group has ventured into various businesses to diversify its revenue profile and reduce its dependence on capital markets. The costs associated with incubating new businesses and the attendant costs in the early stage of some of these ventures affected the Group's overall profitability levels. The Group witnessed a significant increase in credit costs in FY2020 with the deterioration in the asset quality as well as increased provisioning. This, coupled with an increase in the cost of funds, led to further contraction of the Group's profitability level with its RoA declining to 0.2% (annualised) in Q3 FY2020 (0.5% in 9M FY2020) from 1.6% in FY2019. ICRA notes that the Group is revisiting the ECL model to factor in the impact of liquidity as well as other environmental changes. ICRA expects the Group's profitability to remain subdued over the near term due to the higher credit costs.

Limited seasoning of asset reconstruction business – In ICRA's view, the seasoning of the asset reconstruction industry remains limited. Further, the Group focusses on the large single borrower segment, an asset class with a high-risk profile on account of its complexity, higher ticket size as well as the high degree of engagement with promoters. However, the Group is also present in SME and retail segments in ARC space. The risks inherent in distressed assets, coupled with the Group's strategy of focussing on resolution through the revival of operations and debt restriction, can lead to a protracted process and also result in volatility in cash flows. The Group however has resolved certain large ticket assets in the recent past, with recoveries of Rs. 7,019 crore in FY2019 (up from Rs. 2,574 crore in FY2018). The recoveries improved further to Rs. 10,003 crore in 9M FY2020. Given the lumpy nature of these assets, the inability to achieve resolution as per expectations, in terms of the amount recovered as well as timelines, could have a bearing on EARC's financial profile. Furthermore, given the expected shift to the cash mode from the security receipt (SR) mode of asset acquisition, the upfront capital requirement for ARCs would be higher. The upfront capital requirement, however, can be brought down through partnerships with other investors. The ARC's ability to judiciously acquire new assets and resolve them, while maintaining a comfortable capital structure and a competitive cost of borrowings, would also remain critical.

Exposed to inherent cyclicality in capital markets, though expansion into non-capital market businesses provides diversification – The Group remains exposed to the inherent volatility in capital markets as its various businesses are directly or indirectly linked to the performance of these markets. However, its focus on diversifying its business profile over the years has reduced its dependence on capital markets. Given the recent volatile and unfavourable market conditions, the Group's ability to maintain a healthy performance in the capital market related businesses remains critical.

¹ Adjusted gearing calculated as reported net worth including CCDs and CCPs, excluding insurance net worth divided by Borrowings minus CCDs and CCPs

Liquidity position

The Group's liquidity is adequate. As per the information provided, the Group has on-balance sheet liquidity of Rs. 3,700 crore and undrawn bank lines of Rs. 550 crore as of March 31, 2020. It also has other assets in the form of short-term treasury assets and a short-term loan book of Rs. 3,900 crore as of March 31, 2020 that can be liquidated at a relatively short notice. The Group has repayment obligations (principal and interest) of Rs. 3,865 crore and other operating expenses of approximately Rs. 360 crore till June 30, 2020. It has adequate liquidity to service its debt obligations in the near term.

As of April 16, 2020, the Group had on-balance sheet liquidity of Rs. 3,400 crore and undrawn bank lines of Rs. 600 crore. It also has other assets in the form of short-term treasury assets amounting to Rs. 400 crore and short-term loan book of Rs. 3,500 crore as of April 16, 2020 that can be liquidated at a relatively short notice.

Rating sensitivities

Positive triggers – Given the Negative outlook, an upgrade is less likely in the next 12 months. ICRA could revise the outlook in case of a significant and sustained improvement in the Group's asset quality, profitability and its ability to mobilise resources at competitive terms from a diverse set of sources.

Negative triggers – The ratings could be revised if the asset quality remains weak, thereby resulting in a subdued profitability level (RoA of below 1%) on a sustained basis. Pressure on the ratings could also emerge in case of continued challenges in fund raising\inability to diversify funding and reduction in the on-balance sheet liquidity (including undrawn bank lines). An increase in the gearing levels (reported borrowings/net worth excluding insurance) to more than 6x on a consolidated basis could also have a bearing on the ratings.

Analytical approach

Analytical Approach	Comments
Applicable Rating Methodologies	ICRA's Credit Rating Methodology for Non-Banking Finance Companies
Parent/Group Support	For arriving at the ratings, ICRA has taken a consolidated view of the Edelweiss Group, given the close linkages between the Group entities, common promoters and senior management team, shared brand name, and strong financial and operational synergies.
Consolidation Approach	ICRA has considered the consolidated financials of Edelweiss Financial Services Limited. Please see Annexure 2 to view the list of companies considered for consolidation.

About the company

ECL Finance Limited is a systemically important non-deposit taking non-banking financial company (NBFC – ND – SI)) registered with the Reserve Bank of India. It is the primary wholesale lending company for the Edelweiss Group. ECL Finance became a wholly-owned subsidiary of the Edelweiss Group with effect from September 19, 2017 with the Group buying out the previously held 7.8% stake of GIC, Singapore. The company currently carries out the Group's financing activities like structured collateralised corporate loans, real estate financing, loans against securities, SME loans, loans against property, ESOP financing and initial public offering (IPO) funding.

The company reported a profit after tax (Ind-AS) of Rs. 565.88 crore on a total income of Rs. 4,017.46 crore in FY2019 against a profit after tax of Rs. 470.54 crore on a total income of Rs. 3,272.35 crore in FY2018. It had a net worth of Rs. 3,849.45 crore as of March 31, 2019 compared to Rs. 2,901.18 crore as of March 31, 2018.

Edelweiss Financial Services Limited

Edelweiss Financial Services Ltd (EFSL), the holding company of the Edelweiss Group of companies, was incorporated in 1995 by first-generation entrepreneurs to offer investment banking services primarily to technology companies. At present, the Edelweiss Group is engaged in wholesale and retail financing, distressed assets resolution, commodity financing, corporate debt syndication and debt restructuring, institutional and retail equity broking, corporate finance advisory, wealth advisory and asset management. It forayed into housing finance in FY2011, life insurance in FY2012 and general insurance in FY2018.

Key financial indicators (Ind-AS; consolidated for EFSL)

	FY2018	FY2019	9M FY2020 (unaudited)

Complexity level of the rated instrument

ICRA has classified various instruments based on their complexity as "Simple", "Complex" and "Highly Complex". The classification of instruments according to their complexity levels is available on the website www.icra.in

Annexure-1: Instrument details

ISIN	Instrument Name	Date of Issuance / Sanction	Coupon Rate	Maturity Date	Amount Rated (Rs. crore)	Current Rating and Outlook

About ICRA Limited:

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents
