### **3) OBJECTIVE AND PURPOSE OF THE SCHEME:**

The Shriram Group is, *inter alia*, engaged in four different lines of businesses or verticals namely: (i) Financial Lending (ii) General Insurance (iii) Life Insurance and other (iv) Financial Services. One of the main objectives for which this Scheme is being undertaken is to re-organize the Group’s businesses in order to enable focused growth strategies and capital infusion for each vertical. This is in consideration of the fact that each of these lines of businesses has significant potential for growth and profitability, but with different trajectories. Each line of business activity or vertical presents a unique set of promises and challenges, with the nature of risk and reward, significantly different from the others, with each such line of business capable of attracting different sets of investors or stakeholders. The various lines of business have, until the consideration of the proposal in the present Scheme been structured in a manner that involves the co-mingling of the different verticals to synergize operations. The

Companies involved in the present Scheme, which are a part of the Group, including SBCPL in which Piramal Enterprises Limited ('PEL') holds 74.95% and Shriram Ownership Trust ('SOT') holds 25.05%, keeping in mind the changing nature of the businesses and the market for them, are of the view that each line of business or vertical requires its own specially tailored management focus, with different strategies, to account for the difference in the challenges posed, as also the unique needs of each line of business. Accordingly, the Companies involved in the Scheme are of the view that segregating each of the above lines of business activities or verticals as mentioned earlier, will enable greater and more concentrated focus on each such line of business or vertical, and ensure greater business attention both from an operational perspective, and in terms of targeting and attracting a specific profile of investors and stakeholders for each of them. Further, to simplify and rationalize the structure of holdings, the Companies are of the view that while segregating the lines of business, it would also be expedient to eliminate the need for multiple holding companies in each line of business, which would also result in a leaner and more efficient structure.

In the light of the objective and purpose of the present Scheme, it is proposed to undertake the actions mentioned herein:

- (a) To simplify the holding structures and layers in the group of Companies forming part of the Scheme.
- (b) To focus on evolving business strategies with a specialised approach needed for a particular line of business than in a conglomerated entity having multiple businesses.
- (c) To facilitate further investment opportunities from strategic investors/financial investors depending on the particular business interests and risk appetite.
- (d) To achieve restructuring for shareholders of the various companies, in a manner which will unlock value for them.
- (e) The proposed scheme is expected to bring in intangible benefits that the Shriram Group has generated over decades, while at the same time enhancing the scale of operations and enabling better attention and focus to be given in an integrated manner to all the businesses so as to enable achievement of their full potential.

The proposed extensive restructuring exercise *via* the Scheme is expected to bring in following benefits:

- (a) Attract investment opportunities from strategic investors/financial investors who have varied business interests and risk perceptions.
- (b) Provide exit opportunities to investors.
- (c) Facilitate to achieve the objective of expanding the business of mutual fund, wealth management etc., which has tremendous potential, taking advantage of the popularity of the Shriram brand and the extensive retail network available.

(d) Assist the Shriram Group in building a holistic digital strategy to cater to the customer needs of the entities in Shriram Group conglomerate and chalk out a digital transformation roadmap.

#### 4) RATIONALE OF THE SCHEME

The reasons and rationale underlying the Scheme specific to each of the concerned companies, which would make it beneficial for all the companies involved, and their respective shareholders are as follows:

- a. The Transferor Company 1 and the Transferee Company 1/Demerged Company/Transferor Company 2 are both companies carrying on the business of making and holding investments in various specific lines of businesses carried on by the Group, and have both been incorporated with same/similar objects. The amalgamation of these two companies will achieve the purpose of simplifying the structure of holdings by amalgamating entities which are similar in their fields of operation and objectives, unlock value for their respective shareholders, and eliminate the need for multiple layers of entities with the same focus.
- b. The proposed demerger and vesting of the three undertakings, namely (i) Life Insurance Undertaking; (ii) General Insurance Undertaking, and (iii) Financial Services Undertaking, into Resulting Companies 1, 2 and 3 respectively, from the Transferee Company 1/Demerged Company/Transferor Company 2, will enable the segregation of these lines of businesses each of which have independent requirements, strategies, focus and objectives. The demerger and vesting of these independent lines of businesses and undertakings into separate Resulting Companies, will enable those Companies to carry on each of the specialized lines of business with greater focus, tailor-made strategies for operations and growth; enable the attribution of appropriate risk and valuation based on the risk-return profiles of each line of business; provide greater visibility to each of these lines of business, and enable them to attract investments.
- c. The merger of Transferee Company 1/Demerged Company/Transferor Company 2 with its remaining undertaking, with Transferee Company 2, will achieve the combination of the remaining line of business activities [i.e. other than the Life Insurance, General Insurance and Financial Services] of the Transferee Company 1/Demerged Company/Transferor Company 2 with Transferee Company 2, which is a listed entity engaged in the business of financial lending. This will ensure that the companies forming part of the Group, which are focused on the business of lending are concentrated in a single large entity, which has the necessary means, presence and resources to achieve still larger scales in the business of lending, while reducing the presence of multiple entities across the Group, with an interest and presence in

the same line of business.

- d. The proposal in the Scheme to amalgamate the Transferor Company 3 with the Transferee Company 2, will also serve to be highly beneficial to all the stakeholders, by bringing together the capabilities and the presence of the Group in the categories of transport finance, and retail finance, and in the process create a larger financial lending entity with both these businesses combined, and the resulting benefits of scale and synergies of operation. This proposed merger will further consolidate the leadership position of Transferee Company 2 in the 'Commercial Vehicle' market. Following the proposed merger, and by virtue of the Transferor Company 3's extensive understanding of credit culture, the amalgamated entity will be able to launch retail finance products in locations that the Transferor Company 3 has not been able to penetrate. The combination of the operations of these two entities with their own vast networks of customers, will uniquely position the Group to ensure that each line of business is expanded to its fullest potential on the strength of a larger, amalgamated entity. This process will help in consolidating the vast branch network of these two companies and is likely to provide a variety of retail lending under a single window with attendant saving of expenditure.
- e. All the Transferor Companies, the Resulting Companies and the Transferee Companies, are under the Shriram umbrella, with SOT holding 25.05% of the shareholding of the Transferor Company 1. The demerger and amalgamation contemplated in the Scheme would only strengthen and reinforce the management of these Companies, while creating a dedicated leadership and management for each of the lines of business or verticals.
- f. Being companies forming part of the same conglomerate, the amalgamation and demerger contemplated in the Scheme, would create entities that are unique to each of the lines of business activities carried on by the Group, while also enabling consolidation and lead to a more efficient utilization of capital, and create a consolidated base for the future growth of the various entities.
- g. The amalgamation envisaged in the Scheme will also enable appropriate consolidation of the activities of the Transferor Companies and the Transferee Companies with pooling and more efficient utilization of their resources, greater economies of scale, cost synergy, ease of regulatory compliances and improvement in various operating parameters, in addition to enabling the carrying on of each of the businesses in a more efficient, streamlined and organized fashion.
